SICIS®

Preface

Vetro. Trasparenza. Luce. Colori.
Ma come! Non avete vetri colorati?
Vetri rosa, rossi, azzurri, vetri magici,
vetri paradisiaci?
Spudorato!...

Allora non avete nemmeno vetri che
fanno vedere la vita in bellezza!
E invece eccoli i vetri e che
trasparenze.

(C. Baudelaire - i mosaici)

*Glass. Transparency. Light. Colours.
But how. Don't you have coloured
glasses?*

*Pink glasses, red glasses, azure glasses,
magic glasses, heavenly glasses?
Impudent!*

*Then, you don't have glasses that let
you see the beauty in life!
And instead, here are the glasses
and transparencies.*

(C. Baudelaire - the mosaics)

Parola d'ordine trasparenza.

I mille riflessi del vetro. E l'effetto, vedendo questi quadri luminosi, è proprio quello della cristallina consistenza, lucentezza e trasparenza della luce.

Non importa il colore, possono essere rossi come rubini, verdi come smeraldi, gialli come topazii: qualità primaria resta sempre la trasparenza e quell'aspetto di pietre preziose da far desiderare di utilizzare i mosaici in infiniti accostamenti e decori, permettendo di costruire ambienti attraversati dalla luce cui s'ispira l'intera collezione. Un mosaico che può vestire di luce intere architetture. . .

Questi spettacolari abbinamenti di tessere retro-illuminate, retro-verniciate ed opache, confermano nuovamente il successo mondiale di Sicis.

The thousands glass reflections:

Transparency is the watchword. On seeing them, the effect is like crystal-clear, bright, light water. The color is not the main thing. They can be red as a ruby, green as an emerald or yellow as a topaz: the principal quality is always transparency, and that feeling of precious stones running through your fingers. "They" are the multi-colored tesserae which, through infinite combinations and decorations, can create environments that are intersected by light and the fluid reflections which inspire the entire collection.

A mosaic that can make entire structures water-like. . .

And all is linked with the company's heritage of research and experimentation: so has Sicis' worldwide success been determined for years.

Montaggio del banco retroilluminato per Casa Decor a Madrid, in cui il mosaico è stato montato su plexi opalino ed applicato con siliconico alla struttura di legno con strip LED fornita dal cliente.

Backlit counter construction for "Casa Decor" fair in Madrid; mosaic chips are laid on opaline plexiglass fixed on wood structure with silicon and relative strip led supplied by the client.
